

IN THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-31 (Canceled).

32. (Currently Amended) A keratin fiber makeup composition comprising

- a solids content defined by a dry solids extract of more than 45% of the total weight of the composition; [[and]]

- an adhesion profile $PA_{20\%}/PA_{T0} \leq 2.5$, where $PA_{20\%}$ represents the adhesive power of the composition when 20% of the composition has evaporated and PA_{T0} is the adhesive power of the composition at the time at which the composition is applied; and

- at least one fatty phase, wherein the fatty phase represents from 10 to 60% of the total weight of the composition and comprises at least one structuring agent selected from the consisting of

(1) tackifying waxes having the following features:

- a tack ≥ 0.7 N.s, and

- a hardness ≤ 3.5 MPa.

(2) the combination of at least one oil with a compound selected from the group consisting of semi-crystalline polymers, fatty-phase rheological agents, and mixtures thereof, and

(3) mixtures thereof.

33. (Previously Presented) The composition according to Claim 32, wherein the solids content is greater than 50% by weight of the total weight of the composition.

34. (Previously Presented) The composition according to Claim 32, wherein the adhesion profile is 0.05 to 2.5.

35. (Canceled).

36. (Currently Amended) The composition according to Claim ~~[[35]]~~ 32, wherein the fatty phase represents from ~~40 to 60%~~ 15 to 50% of the total weight of the composition.

37. (Currently Amended) The composition according to Claim ~~[[35]]~~ 32, wherein the structuring agent is at least one ~~selected from the group consisting of~~ tackifying wax~~[[es]]~~; ~~the combinations of at least one specific compound with at least one oil, and mixtures thereof.~~

38. (Previously Presented) The composition according to Claim 37, comprising C20-C40 alkyl 12- (12' - hydroxystearoxy) stearate as the at least one tackifying agent ~~at least one tackifying wax having the following features:~~

- ~~—a tack \geq 0.7 N.s, and~~
- ~~—a hardness \leq 3.5 MPa.~~

39. (Currently Amended) The composition according to Claim ~~[[37]]~~ 32, wherein the structuring agent is a combination of at least one semi-crystalline polymer ~~specific compound~~ with at least one oil.

40. (Currently Amended) The composition according to Claim ~~[[39]]~~ 32, wherein the structuring agent is a combination of at least one specific compound ~~is selected from the group consisting of semi-crystalline polymers, fatty-phase rheological agents~~ with at least one oil ~~and mixtures thereof.~~

41. (Currently Amended) The composition according to Claim ~~[[39]]~~ 32, wherein the oil is selected from the group consisting of volatile and non-volatile hydrocarbon oils, silicone oils, fluoro oils, and mixtures thereof.

42. (Currently Amended) The composition according to Claim ~~[[39]]~~ 32, wherein the oil has a molecular mass greater than or equal to 250 g/mol.

43. (Currently Amended) The composition according to Claim ~~[[39]]~~ 32, wherein a compound and at least one oil are present in the composition as a structuring agent and the combination of a specific compound with at least one oil has:

- a tack \geq 0.1 N.s. and
- a hardness \leq 30 MPa.

44. (Currently Amended) The composition according to Claim ~~[[40]]~~ 39, comprising a combination of semi-crystalline polymer with at least one oil exhibiting a tack from 1 to 5 N.s and a hardness of from 0.1 to 20 MPa.

45. (Currently Amended) The composition according to Claim ~~[[35]]~~ 32, wherein the structuring agent represents from 10 to 60% of the total weight of the composition.

46. (Currently Amended) The composition according to Claim ~~[[35]]~~ 32, further comprising water and optionally one or more hydrophilic organic solvents.

47. (Previously Presented) The composition according to Claim 46, comprising at least one hydrophilic organic solvent selected from the group consisting of monoalcohols having 2 to 5 carbon atoms, polyols having 2 to 8 carbon atoms, C₃-C₄ ketones and C₂-C₄, aldehydes.

48. (Previously Presented) The composition according to Claim 46, wherein the water or mixture of water and hydrophilic organic solvent(s) is present in an amount ranging from 0.1% to 90% by weight relative to the total weight of the composition.

49. (Previously Presented) The composition according to Claim 32, further comprising a film-forming polymer.

50. (Previously Presented) The composition according to Claim 49, wherein the film-forming polymer is selected from the group consisting of vinyl polymers, polyurethanes, polyesters, polyamides, polyureas, cellulosic polymers, and mixtures thereof.

51. (Previously Presented) The composition according to Claim 49, wherein the film-forming polymer is present at a polymer solids content ranging from 0.1% to 60% by weight relative to the total weight of the composition.

52. (Previously Presented) The composition according to Claim 32, further comprising a colorant.

53. (Previously Presented) The composition according to Claim 52, wherein the colorant is selected from the group consisting of pigments, nacles, fat-soluble dyes, water-soluble dyes, and mixtures thereof.

54. (Previously Presented) The composition according to Claim 52, wherein the colorant is present in an amount ranging from 0.01% to 30% by weight, relative to the total weight of the composition.

55. (Previously Presented) The composition according to Claim 32, further comprising at least one cosmetics additive selected from the group consisting of antioxidants, fillers, preservatives, perfumes, neutralizing agents, thickeners, surfactants, cosmetic or dermatological active agents, plasticizers, coalescents, and mixtures thereof.

56. (Previously Presented) The composition according to Claim 32, wherein said composition is a makeup composition, a makeup base, a top-coat composition to be applied over makeup, or a keratin fibre care or treatment composition.

57. (Previously Presented) The composition according to Claim 32, wherein said composition is an eyelash coating composition, a composition to be applied over an eyelash makeup, or an eyelash treatment composition.

58. (Previously Presented) The composition according to Claim 32, wherein said composition is a mascara.

59. (Previously Presented) A method for treating or making up keratin fibres, which comprises applying to said keratin fibres a composition according to Claim 32.

60. (Previously Presented) The method according to Claim 59, wherein said keratin fibers are eyelashes.

61. (Previously Presented) The method according to Claim 59, wherein said method volumizes said keratin fibres.

62. (Previously Presented) The method according to Claim 60, wherein said method volumizes said keratin fibres.
